

EPOS Seismology Workshop
including the
2017 ORFEUS Annual workshop
and
EMSC General Assembly

25 – 27 October 2017, Lisbon, Portugal

2nd Circular

What A three-day workshop to learn about and discuss EPOS Seismology, including hands-on experience of EPOS Seismology services, and a special focus on EPOS GNSS services and their interconnection with seismology. In combination with the **ORFEUS Annual workshop**, with a focus on Seismology on the Iberian Peninsula and in Northern Africa.

The annual **EMSC General Assembly** will take place during this workshop on the evening of 26 October.

Where The workshop will take place at **IPMA**, Portuguese institute for Sea and Atmosphere www.ipma.pt and **ISEL**, High Institute of Engineering of Lisbon www.isel.pt
Both venues are within easy reach of the Lisbon airport, on the red line metro

Basic Facts

Start Wednesday, 25. 10. 2017, 10 a.m. (11 a.m. CEST)
End Friday, 27. 10. 2017, 3 p.m. (4 p.m. CEST)

Further information on program and logistics: <http://orfeus-epos.ipma.pt>

Registration: <http://www.orfeus-eu.org/other/workshops/orfeus-epos-seismology/index.html>

Oral Program

Invited keynotes and presentations on

Day 1: Seismology and seismological observatories on the Iberian Peninsula and North-Africa | ORFEUS status and plans | EPOS Seismology general issues

Day 2: EPOS Seismology services | EPOS GNSS activities | hands-on service experience and user interaction

Day 3: EPOS Seismology: scientific use and challenges | User expectation, integration, feedback | related new projects

Poster Program

Poster contributions are invited on the following broad topics:

Theme A) *Seismological Networks and datasets of interest*

Theme B) *Using data and products services for science*

Theme C) *Science on the Seismology-Geodesy interface*

Posters will be presented all day during Day 2 and Day 3. More information on the poster program: <http://orfeus-epos.ipma.pt/2017/08/07/workshop-poster-session-call-submission/>

Deadline for poster (abstract) registration: 17 September 2017

Local organizing committee and support

IPMA: Portuguese Institute for Sea and Atmosphere: *Fernando Carrilho, coordination*

ISEL: High Institute of Engineering of Lisbon: *Graça Silveira, Nuno Dias*

IST/UBI: Instituto Superior Técnico: *Joao Fonseca*

FCUL: University of Lisbon: *Susana Custodio*
